

9 MARCH 2026

FINAL APPROVAL RECEIVED FOR TUMBLEGUM SOUTH GOLD PROJECT

Highlights

- Native Vegetation Clearing Permit granted by the WA Department of Mines, Petroleum and Exploration
- All approvals in place for the Tumblegum South Gold Project to commence mining

Star Minerals Limited (ASX: SMS, “the Company” or “Star Minerals”) is pleased to advise that it has received its Native Vegetation Clearing Permit for the Tumblegum South Gold Project from the WA Department of Mines, Petroleum and Exploration (DMPE). The permit represents the final approval required for mining activities to proceed at the project, subject to operational decisions by MEGA Resources under the previously announced Right to Mine Agreement.¹

Managing Director, Ashley Jones commented: *“The award of the Native Vegetation Clearing Permit means that all key approvals are in place for mining activities at the Tumblegum South Gold Project. With a milling solution in place with Catalyst Metals and our Right to Mine Agreement established with MEGA Resources, all the pieces of the puzzle are in place to enable us to take advantage of ongoing strong gold prices and deliver value for our shareholders.”*

The Native Vegetation Clearing Permit decision from DMPE was publicly advertised for comment on Friday 6 March and the permit becomes active from 29 March 2026.

Preparations for mining are already underway, with grade control drilling now completed and MEGA Resources ready to mobilise for site preparation works. The Company has also appointed experienced mining engineer, Chris Lee as Mine Superintendent - Star Minerals Representative. A toll treatment agreement has been secured with Catalyst Metals for processing material from the project at its Plutonic Gold Mill.²

ABOUT STAR MINERALS

Star Minerals is primarily focused on the development of the Tumblegum South Gold Project, aiming to bring the project into production in early 2026. Free cashflow will capitalise on gold prices sitting significantly higher than the prices used in the Updated Scoping Study.³ A Right to Mine Agreement has been signed with MEGA Resources and Bain Global Resources for mine funding, development and mining.⁴ Mining Approval for the project has been received from the Government of Western Australia.⁵ A toll treatment agreement has been signed with Catalyst Metals (ASX: CYL).⁶

At gold prices from A\$3,000 to A\$3,800/oz, the updated Production Target for the Tumblegum South Gold Project (**Updated Production Target**) ranges from approximately:

1. **167kt @ 2.43g/t producing 11.8koz gold, to**
2. **255kt @ 2.16g/t producing 15.9koz gold**

The Updated Production Target generates an undiscounted accumulated cash surplus after payment of all working capital costs, but excluding pre-mining capital requirements, of approximately **A\$9.4M to A\$19.6M**.

Sensitivity of the base case scenario to gold price was assessed. Results suggest that project economics are robust for a broad range of gold prices.

MINERAL RESOURCE ESTIMATE

Project Area	Resource Category	Weathering	Tonnes (kt)	Grade (g/t Au)	Gold ounces (koz)
Tumblegum South	Indicated	Transitional	25	2.99	2
		Fresh	312	2.48	25
		Subtotal	337	2.52	27
	Inferred	Transitional	40	1.76	2
		Fresh	239	2.03	16
		Subtotal	279	1.99	18
Total			616	2.28	45

Tonnages are dry metric tonnes. Minor discrepancies may occur due to rounding.

COMPLIANCE STATEMENTS

The information in this announcement that relates to exploration results is based on information compiled by Mr Ashley Jones, who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM) and is a Director of Star Minerals Limited. Mr Jones has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as

³ See ASX announcement dated 20 May 2024 'Positive Updated Scoping Study for Tumblegum South Gold Project'

⁴ See ASX announcement dated 13 November 2025 'Right to Mine Agreement Signed'

⁵ See ASX announcement dated 10 December 2025 'Mining Approval Received for Tumblegum South Gold Project'

a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Jones consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

The information in this announcement relating to the current resource estimate for the Tumblegum South gold deposit is extracted from the Company's announcement 'Tumblegum South Mineral Resource Update' dated 29 May 2023 and is available to view on the Star Minerals' website, www.starminerals.com.au.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement. The estimated mineral resources underpinning the Production Target have been prepared by the Competent Person in accordance with the requirements of the JORC Code (2012).

The information in this report that relates to the Open Pit Mining Scoping Study for Tumblegum South and to the Production Target derived from the Scoping Study is based on information compiled by Mr Jake Fitzsimons, a Competent Person who is a Member or Fellow of The Australian Institute of Mining and Metallurgy and a full time employee of Orelogy Pty Ltd. Mr Fitzsimons has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves". Mr Fitzsimons consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

FORWARD LOOKING STATEMENTS

This announcement contains forward-looking statements which are identified by words such as 'may', 'could', 'should', 'believes', 'estimates', 'targets', 'expected', or 'intends' and other similar words that involve risks and uncertainties. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this announcement, are considered reasonable. Such forward-looking statements are not a guarantee of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the management. The Directors cannot and do not give any assurance that the results, performance, or achievements expressed or implied by the forward-looking statements contained in this announce will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.
